VIGILANTE

Controlling, lying, blocking –
ways for the individual to win
the privacy arms race?

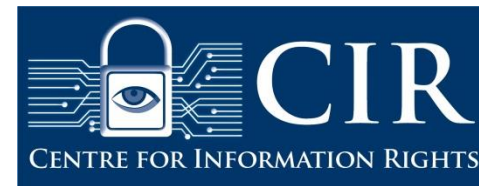

Challenges include:

- PDSs – contract formation & incorporation of terms
- Blocking – computer misuse?
- Obfuscation ‘without legal consequence’* Not so clear cut

* Murray-Rust et al (2014)

Privacy vigilantism: by continuing to shift responsibility onto the **individual**, is this letting **society** off-the-hook for finding better solutions to privacy concerns?

#TRILCon15

- 2nd Annual Conference on Trust, Risk, Information & the Law
- Theme: **the privacy arms race**
- Tues 21 April 2015, University of Winchester
